

Members.

A new 5 paddle dueling tree has been installed in the rifle bunker for your use.

The dueling tree can be used from either station R1 or R2 by a single member in the rifle shack. Once the paddles are facing the opposite way from the starting position, you return them to the starting position.

Should a member be in either station R1 or R2 when you enter to use the dueling tree, it is acceptable to invite them to join you in using the dueling tree or use it individually.

NO magnum loads – max velocity 2,800 FPS

If you are unsure of the velocity / FPS - ask.

Signage Below

DUELING TREE

NO MAGNUM LOADS

MAXIMUM VELOCITY

PERMITTED 2,800 fps.
