

NPRC

RANGE PROCEDURES 2017

Grouped members.

Now that we have followed the CFO protocol to enter the NPRC range.

We will now cover the CFO procedure to follow when several members arrive at the same time to the range. Ever keeping safety foremost.

IMPORTANT:

The first person to unlock the padlock that gives entry to the shooting stations and the gong area

Now becomes an **R.O. (range Officer)** and has full control over the other members at sign in and the safe proceeding to open the range.

He will sign in first. Turn on hydro, confirm that the range light is **RED**. (range is live)
Proceed to a shooting station and place firearm / ammo case at a shooting station.

R.O. to raise RED flag.

All other members may proceed to sign in and place their firearm and ammo cases at a shooting station.

Follow all safety rules and regulation including eye and ear protection.

You may now uncase your firearms.

If rifle shooting , place **RED** pole flag on holder outside of rifle hut.

PAPER TARGET:

Should a member require to place a paper target, he will request a cease fire.

And ensure that everyone has been notified including those who may be in the rifle hut.

He will change light to **GREEN**. (range is safe)

Open the gate to the range and proceed to place a paper target.

When competed he will secure the gate closed.

And **ONLY** he will change the range light back to **RED** and advise all that the range is LIVE.

At any time the range lights are changed **ONLY** the person operating the lights will make the range safe or live.
